107	MORE SHOP TIME. This is the fourth survey I have completed in my time here and I have repeatedly stated that more shop time is required to be well trained for this line of work. I did an internship over the summer of 2017 and I wasn't able to do half of the jobs they wanted out of a trade student. My boss graduated from the PMT program and was outraged by the amount of time that has been taken away from us. I learned more from my two months on a job site from the shop in two years, and I believe that this is unacceptable. I understand that there is a lot of work required to make more shop time happen. But it needs to happen.	3/19/2018 12:29 PM

Unfortunately, there weren't many activities and the gym was occupied many times for outside Johnson events, therefore preventing me and my friends from casually playing some basketball in the gym numerous times.	3/19/2018 11:22 AM
111	I felt that changing a lot of policies in my major increased stress levels for everyone and hurt grades and I'm not saying I'm asking for this to be easy it is college it just would have been nice if these policies were implemented before or after we came to this school.	3/19/2018 11:16 AM
112	I think that not one instructor in this program is on the same page as one and other. I think that there are many negative things that happened that could have been avoided if our instructors are on the same page. As far as being prepared for our board exams we are told multiple different answers to 1 question so we really did not have much preparation. I think that this would be a really great program if things were more organized, we weren't rushed into learning things, and everybody was on the same page with topics throughout the program.	3/19/2018 10:07 AM
