24 - Please provide any comments you have about the cafeteria or Metz food services.

Response Rate	34/219 (15.53%)
<ul style="list-style-type: none"> • The food is great as usual • i love their food but hate that they shut almost everything down an hour before they leave, some students do not have a chance during the day to get food and when they do their options are limited by that point. • healthier choices for breakfast would be great • Did not use cafeteria • Bring chef Mike back. Please. Expand menu. • Mike should not have left. The new chef is not that good. • N/a Never eaten, Faculty seems good • More food choices • Students with the meal plan can't get meals on the weekend and the cafe closes at 5. I have classes at 5. • more options stay open later on Friday • good all around • expensive • I had asked about having coke zero brought in. There are not many drinking options available for diabetics. I asked the workers about getting it in as well as the gentleman that was taking care of the machines. There were a few bottles in the vending machine in the student lounge but they are gone. It was replaced with something else. Chefg and the other workers do a great job!!!! • Good food • HIRE MIKE BACK!!!! • Clean • M&m cookies are good • They don't have any allergen friendly food that I could eat. • All good • Love the prices and variety of food. I feel some days it feels understaffed but I still get my food quickly and tastefully. I hate the vending machines. • Dude, Elana and Chris are the bomb diggity. Don't get rid of them. Ever. I will riot. • good • My nigga Chris is a great cook • everything is good • Went once, good experience • Bring back Mike. • GET A BETTER MENU! LOWER THE PRICES! AND BRING MIKE BACK CAUSE THE NEW GUY CANT COOK FOR SHIT! • They need more options and better quality food. Chris is a great cook but what hes given to cook with is not satisfying. Us students are paying a large amount to eat here so why are we given hospital quality food. • Good • Sno Berry Peace Tea is a blessing • The Metz food services staff are great and very friendly. • Needs More ready to go options. To grab and go. • N/A • Refrigerated creamer

104/219 (47.49%)	1.59	0.69

- I'm learning what I have to learn
- I wanted to study a trade (welding) so that I wouldn't have to deal with programs like Microsoft Office. I was forced through classes about it in middle and high school and many of my classmates have said the same. When I read "Microcomputers" I thought we would be learned about machines that are used in shops today such as CNC machines or lathes.
- I want to pursue a Technological field.
- Academically yes the school met my expectations, staff wise yes, student wise no due to some issues and events transpiring at the dorms.
- I am learning the material in a very easy and simple way. And I don't think a lot of colleges teach this way which makes me happy that I came here.
- Everyone wants you to succeed and it's a great feeling.
- The staff wants you to achieve your goals. They help you succeed and not hold you down.
- I expected to get hands on learning for my major and i am getting plenty of that.
- I expected to be in a fantastic learning environment with hands on learning and that's what I got
- Hands on work along with the classes really get a full thought of what your learning. less confusion
- Don't get much one on one time with the instructors.
- N/a
- Decline
- yes
- great environment
- i enjoy all my classes
- It is incredible how much I've learned in the short amount of time I was here.
- Johnson college surpassed my expectations
- Johnson college has taught me more than i have expected to learn and i still have a year left to learn even more.
- I wasn't to sure what to expect, but I do like it here and feel I am learning what I need to know.
- Everything bus exactly what I wanted
- It didn't meet my expectations, it exceeded it above and beyond! I adore my program and the staff and instructors who keep it going. I have been given opportunities here that I never expected to get from a two year degree.
- I feel like I'm not grasping some of the material and I can't tell if it's my fault or the instructors.
- Just how good my teachers are and how they encourage you
- Good school to be at
- Only quarter of the way there.
- getting prepared
- Getting the knowledge I am seeking.
- I thought i wouldve been working with quality material after what i paid to come here and have a better class i should have gone to ohio tech instead. our projects cant even be taken home and we just get told to bring our own material in. maby if i learned more about furniature and cabinet making instead of framing and other nonsense i would enjoy my time here.
- Could not ask for a better institution
- It met my expectations
- I feel this way because I wasn't sure if I was going to like it very much, but I've grown to like it. I enjoy the friendly environment that is also very personable. I feel as though I'm getting a valuable education that's going to give me a great life one day.
- Welding program is very well instructed.
- I have the opportunity to pursue the degree i want to be in.

32 - I have been exposed to industry partners throughout my time at Johnson College.

- I thought they would be harder than they are.
- Haven't been in a classroom setting for years and just getting a feel for everything again.
- they are challenging but not over bearing.
- General education classes
- They're not as hard as I thought they sounded. They are very simple and explained in a very easy and basic way.
- Being in the PTA program there's a lot of work, but it's worth it!
- The classes allow you to get a good understanding about them. They don't set you up for failure.
- Work load in degree-oriented classes is overbearing and too much. Insufficient time to finish all assignments.
- I haven't been in school for awhile so it is a challenge.
- My classes are fairly easy.
- I never took a physics class before, it's all new to me
- I thought I was gonna have less homework and learn more during class time
- N/a
- yes
- some class are a more challenging than i though
- I knew nothing about welding, but with hard work you can learn anything.
- I have been out of school for 23 plus years.
- The only issue I have is that this semester I am taking Trigonometry alongside Statics, Strengths, & Materials. Trigonometry begins with all the introductions and gets more complicated during the semester. The Statics class jumps into Trig as if everyone has already taken it. Both are on the curriculum for the same semester, it was not my choice to take both at the same time. Being in both of them now I would hope future students could take Trigonometry one semester and Statics any semester after that but not at the same time.
- They seem easy so far. I had never worked on cars before this, but now feel pretty comfortable with them.
- They are exactly as expected
- Some are tough, but doable. My instructors work their hardest to ensure we understand the material and succeed.
- I knew it would be hard but sometimes its difficult
- Classes are as anticipated.
- online courses
- the classes are a joke. boring cant focus and theres nothing to work for and/or take the time to absorb the information
- I expected the courses to be difficult and they are
- I expected them to be hard
- Some of my courses have been more difficult, but most have been easier. I wish there was an option to test out of Gen Ed courses or more of an acceptance of transferring credits. I came in the fall with the mindset that it was going to be difficult so I think my work ethic helped make the courses feel easier. I do realize that next year will be a lot more difficult for me though.
- They are a little more intense than i expected them to be.

34 - If you would like to participate in a focus group discussion about the questions in this survey, please provide your name and email address. All responses remain anonymous and will not be associated with your name or email address.

35 - Please provide any additional information, comments, complaints, or praises that you would like to share with the College.

Response Rate	15/219 (6.85%)
<ul style="list-style-type: none">• No comment.• My teacher, Mr. Delucca, has helped us every way he possibly could. Whenever we had legitimate concerns about a class he would talk to the teacher to try to sort things out. My biggest worry going into welding was safety. Safety is his number one priority in the shop and he takes it very seriously. He genuinely cares about his students, he wants us to do well and make good decisions in life. He has been an all around wonderful teacher and I look forward to going to his class every day.• My professors are very helpful and I enjoy learning from them.• Those students who are not your traditional students and work full time should be excluded from the attendance policy. Also, Johnson College should offer more scholarships/grants than what is currently offered.• I think Johnson College is a great school. It so far taught many things that I have never known before. I've learned so much about computers and networking and I am happy that I have chosen this school.• n/a• Really wish I got more advice on the financial aspect.• yes• Its great• N/A• I love everything and everyone at my Veterinary Technician program.• n/a• I'm happy the old Financial Aid lady is not here anymore, the new lady is very helpful and she enjoys talking to us not only as students but as people. I'm glad I don't have to dread going to Financial Aid anymore and I will receive help and not feel like garbage when I leave.• Overall, I truly think Johnson College is a great school. The environment, staff, and facilities are all very useful and make me feel welcomed.• Who do I talk to about me slipping on ice that you guys didn't take care of and almost cracked my head open.. bashed my arm off the railing and it hurts pretty bad. Not happy at all
