Project	Write-in Text	Respondents/ Enrollments
BTT Survey	<ul style="list-style-type: none"> - Instructor knowledge - Comprehension - N/A - Getting to know a little bit of 3 major trades is very valuable in my opinion. I've even been finding myself applying the knowledge I've learned in my everyday life/work. - it was all very easy for me - Well organized. - n/a - Great class no issue - Learned many things I never knew - Everything - N/A - Easy learning - Technology was put to good use in class and Lab - The lecture - Mr. Wood and Mr. V - It helped get overall knowledge of all trades. - Absolute hands on approach encouraged faster learning and retention - The instructors experience. - I don't know - Learning. - Learning all the different trades in the field. - that we got to see a bit of each course - The course was well put together and gave me vast knowledge in all of the trades. - Learning the 3 main trades and how to fix a problem incase I ever run into it in the field and to introduce to me a new trade I may enjoy more than the one that I picked. - Yeet - Nothing - Great class discussions. - Being hand on - Learned a lot very quickly - being taught the basics of each trade to see how all of them work together in the real world - The Instructors know their stuff - They give you a lot of knowledge in such a short period of time. - helpful - I like how organized and how the lessons were pre- planned. There was not any rushing around to figure out what we would do that day. - We talked through the class and the lessons - pretty good overall - experience in all fields. 	37/84 (44.05%)

Project	Write-in Text	Respondents/ Enrollments
BTT Survey	- Instructor attentiveness, felt myself waiting while an instructor was talking about an off topic subjects to other students - Reading - N/A - None. - nothing needs improvement - No improvements necessary. - n/a - No issue to correct - I dont really see any room for improvement anywhere. - Nothing - N/A - Not sure - N/A - Do not think Mr. Duncan should be working for Johnson College. He is a disruption and did not take the time to be really helpful. Very unprofessional with the way he spoke. He was always trying to look for women on Tinder and made some crude comments about girls who were under the age of 18. I'm sickened that I had to pay money to be in that class. School is not cheap and I should not have had to deal with that. Does anyone actually read these???? - I think more project will make the classes more interesting. - None - N/a - More Projects for the students to learn more things and use it in there future career trade. - none needed. - Better engagement - Times - None - none - Nothing. - Yeet - Nothing - More extra credit opportunities. - Knowing how to do some of the things - Should go more in detail about safety - nowhere - i feel that sometimes there wasn't enough time to complete the assignments in lab but that is to be expected - Nothing - none - I think the course could be improved with more assignments that help float the grade. - More Hands on work - nowhere - I think it was well organised the way it is	37/84 (44.05%)
