· It's the same food every week

· For the meal plan there isn't a lot of options other than a few things

• pricey, bad food, late to class due to waiting in line for chicken tenders, scammed on jaguar card.

· coffee could use a little work

· Better then just fast food deep fried crap

• The offerings vary which is important to keep individuals interested in visiting. most of the selections are types of food that i would be interested in.

· Need to add food that caters to those with dietary restrictions, such as allergies or Celiac

• Breakfast is not good, especially breakfast sandwiches. Get some hard rolls and some taylor ham. Bagels? seriously?

Needs more options on the meal plan

More chocolate milk

The meals are always fresh and taste good. I would like more of a variety of meals to pick from.

• The meal plan is terrible compared to last year and if you dont like what's on the menu all other foods are so expensive and in order to get a non expensive drink you have to use a meal plan swipe. Metz is the same company that is used in other colleges and they've used their services to make optional or mandatory meal plans good. For example, Misracordia uses Metz and you have to use 1 swipe to get in the cafe and then its unlimited food so they can compete with colleges like marrywood and the University of Scranton. I believe the college should be more worried about the happiness of their students than having curb appeal to outsiders.

• A couple things are over	priced,										
 they could be better 											

• the prices seem comparable to other lunch prices in the area.

• I'll pay a little more to have better service behind the food counter, and not wait so long like last year.

• Way too overpriced it's cheaper to go to fast food and get a salad that's twice the size of what is offered and its half the price. A \$dollar salad should fill a whole to go container not a 6ox bowl

8 - Provide any comments you have about Metz Food Services/cafeteria.

Response Rate 11/64 (17.19%)

• I do not like that the meal plan now forces students to choose from a preselected menu and have to pay out of pocket if they want something that is not on that list.

• I would like it very much if the brought back the Green Mountain coffee. I would get coffee from there much more frequently. The staff is friendly and the one cashier, Elena, is always very helpful and nice.

They present themselves as very professional.

do better

· Food tastes good.

• I think it should be opened later for the people who are in the night classes,

Certain things are overpriced

• More selection with food plan, no set meals. Do not use chicken nuggets and call them wing bites. Coffee is pretty good. Servings got smaller (portions).

• everything on the menu should be on the meal plan not sure why everything isn't it would make it easier for students to pay for there meals

everything good !

· I would like there to be more of a variety of meals to choose from daily.
