## Interession 2019 End of Course Survey

### 9 - Please identify what you consider to be the strengths of the course.

Response Rate	10/25 (40%)
---------------	-------------

- All aspects of Microsoft
- I'm glad there was an option to take the class online, I took this class in high school so it was basically a review for me.
- Separate weeks for separate applications
- all
- The provided videos helped a lot. Without them I'm not sure I would have been able to complete the assignments. Also the instructor was very helpful and timely in responding to emails and questions.
- the teacher was very helpful
- I think it identifies different applications that could be useful for certain students in the future.
- The ability to move at my own pace without a lot of strict deadlines.
- Teacher was very knowledgeable of the subject. The course was well prepared
- it was fine

### 10 - Please identify area(s) where you think the course could be improved.

Response Rate	10/25 (40%)
---------------	-------------

- Delete the assignments the class won't be doing or update the due dates. It's a little confusing.
- I don't think there are any areas that could be improved.
- We pay too much money to have to 100% teach ourselves
- none
- Access is outdated and not really necessary. If your going to teach a computers class start by updating D2L so I stop getting messages for overdue assignments from the wrong semester. Also if you post updated information post it on the week we are in or email it to us directly.
- nothing the class is compressed into a shorter time but mrs. h really worked and made sure we were all good
- More relevant information, I understand the importance of the material but the course moves so fast that by the end I feel I haven't learned much of anything.
- No complaints
- N/a
- it was fine
