RADIOLOGIC TECHNOLOGY

RADIOLOGIC TECHNOLOGY

PROGRAM OBJECTIVE

The Radiologic Technology program prepares students for entry-level positions in a hospital or outpatient clinical setting. Graduates will be prepared to take the national certification for the American Registry of Radiologic Technologists (ARRT) examination to become a registered technologist.

READY. SET. WORK.

Goal 1: Graduates will demonstrate clinical competency.

Goal 2: Graduates will utilize critical thinking skills

Goal 3: Graduates will demonstrate effective communication skills.

Applicants are encouraged to arrange a campus visit and a personal information session with a Recruitment Advisor. Appointments may also be made to meet with appropriate faculty and current students.

CAREER OPPORTUNITIES

Graduates can work as technologists in hospitals, medical service centers, and outpatient imaging centers, or with additional training and education, career advancement into other imaging modalities is possible.

The Radiologic Technology program at Johnson College offers several career and employment post-graduation paths. Upon successfully passing the ARRT national certification examination, students may continue their education in a nine-month certificate program in MRI or CT scanning.

SPECIAL ADMISSIONS REQUIREMENTS
