DIESEL PREVENTATIVE MAINTENANCE TECHNOLOGY

(CERTIFICATE)

PROGRAM OBJECTIVE

The Diesel Preventative Maintenance Technician program prepares students to enter the workforce ready to perform routine repair procedures, preventive maintenance, and safety applications.

Ready. Set. Work.

The Diesel Preventative Maintenance Technician program prepares students to enter the workforce ready to perform routine repair procedures, preventive maintenance, and safety applications.

Goal: Graduates will possess the appropriate skills and safety awareness that are needed for entry into the diesel preventative maintenance field.

Applicants are encouraged to arrange a campus visit and a personal information session with a Recruitment Advisor. Appointments may also be made to meet with appropriate faculty and current students.

CAREER OPPORTUNITIES

Graduates work as brake technicians as well as perform routine maintenance and make general repairs.

Typical employers of Diesel Preventative Maintenance technicians are truck, farm, and earth-moving equipment dealerships; trucking companies; truck service centers; engine repair/machine shops; truck equipment distributors; independent service garages.

PROGRAM COURSES

CREDITS

TERM 1
